

ABOUT

A geosciences professional with four years of experience, looking forward to solving scientific-industrial problems by developing creative solutions through highly adaptive and proactive work. I have large experience in working at multidisciplinary projects for technological innovation in geosciences, specially those related to geological modelling and applied research. I am always curious about learning new subjects and open to new challenges.

EDUCATION

ONGOING PhD IN GEOCHEMISTRY AND GEO-MODELLING
2019 – 2023.1 | Universidade Federal Fluminense – UFF

MASTER DEGREE IN GEOLOGY
2017 – 2019 | Universidade Federal do Rio de Janeiro – UFRJ

DEGREE IN GEOLOGY
2010–2016 | Universidade Federal do Rio de Janeiro – UFRJ

ONE-YEAR INTERNATIONAL UNDEGRADUATE SCHOLARSHIP
2014 | University of Queensland – UQ – Australia

CURRENT ACTIVITY

GEOLOGIST AT PETROSOFT DESIGN:

- Geological consultancy;
- Algorithm development;
- Software testing and QA/QC;
- Client support;
- Scientific and technical report writing.

RECENT ACTIVITY

PHD RESEARCHER AT THE "PR3 PROJECT":

- Data interpretation, spatialization and modelling (well log, seismic, geochemical and other geological data);
- Software development – team management, conceptual model, code writing (Python) and QAQC;
- Meeting with company's decision-makers to align needs and maximize the integration between our plug-in to the main software (StratBR);
- Creating the sequence stratigraphy framework of a mid/Late Cretaceous marine interval within the Espírito Santo Basin (SE Brazil), to build a 3D stratigraphic model;
- Mentoring undergraduate students (geology, geophysics and computer science students) that are developing activities within the PR3 Project.

SOBRE

Um profissional conectado aos avanços científicos e suas aplicações industriais através do desenvolvimento de novas soluções eficientes. Tenho grande experiência em trabalhar em projetos multidisciplinares com foco em integração de dados multiparamétricos para modelagem geológica e no desenvolvimento de inovações tecnológicas aplicadas à área de geociências. Tenho conhecimento em softwares de modelagem geológica e geoprocessamento, como o Petrel, StratBR e ArcGis. Atualmente trabalho em projeto de desenvolvimento de um plug-in para um software de modelagem estratigráfica.

FORMAÇÃO

DOUTORANDO EM GEOCIÊNCIAS

2019 – 2022.1 | Universidade Federal Fluminense – UFF

MESTRE EM GEOLOGIA

2017 – 2019 | Universidade Federal do Rio de Janeiro – UFRJ

GRADUAÇÃO EM GEOLOGIA

2010–2016 | Universidade Federal do Rio de Janeiro – UFRJ

GRADUAÇÃO SANDUÍCHE EM GEOLOGIA

2014 | University of Queensland – UQ – Austrália

CURRENT ACTIVITY

PhD researcher at the "PR3 Project" – Petrobras in partnership with the Laboratório de Oceanografia e Paleoceanografia (LOOP – UFF). PR3 is a R&D project for technology development that aims to create an organic facies prediction plug-in for a commercial stratigraphic forward modelling software (StratBR, owned by Petrobras).

My attributions within this project are:

- Data interpretation, spatialization and modelling (well log, geochemical, seismic and other geological data);
- Software development – developing the conceptual model, partial code writing (Python) and QAQC;
- Meeting with company decision-makers to change information and maximize the integration between our plug-in to the main software;
- Creating the sequence stratigraphy framework of a mid/Upper Cretaceous marine interval within the Espírito Santo Basin (SE Brazil), to build a 3D stratigraphic model;
- Mentoring undergraduate students (geology, geophysics and computer science students) that are developing activities within the PR3 Project.
